Site Audit: Detailed Issue: Duplicate content in h1 and title

salesfocusinc.com

Generated on October 20, 2026

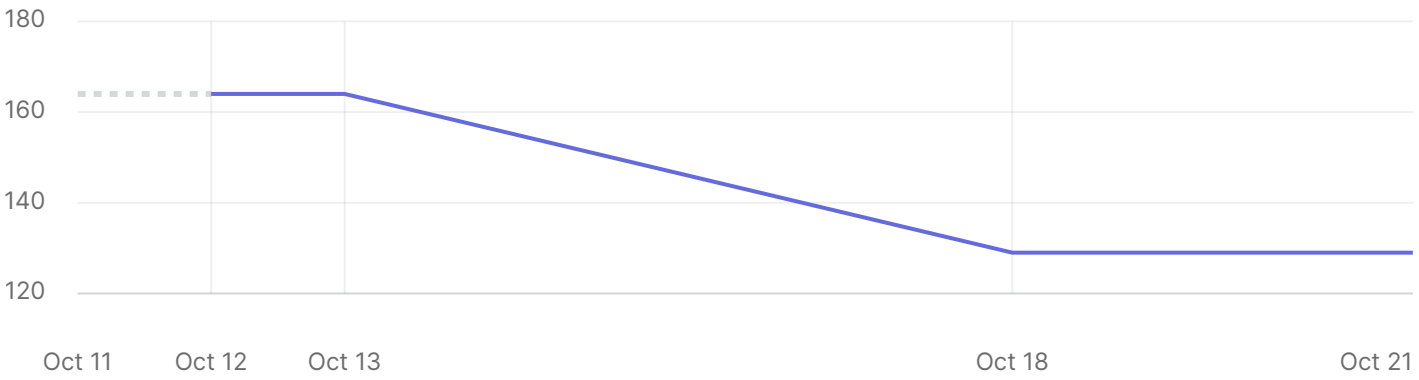

Duplicate content in h1 and title

Project name: salesfocusinc.com

Detailed Issue Description

About this issue:
It is a bad idea to duplicate your title tag content in your first-level header. If your page's <title> and <h1> tags match, the latter may appear over-optimized to search engines.
Also, using the same content in titles and headers means a lost opportunity to incorporate other relevant keywords for your page.
For more information, please see this Google article
How to fix:
Try to create different content for your <title> and <h1> tags.

Detailed issue

Detailed issue

Only the first 100 rows are shown in reports. To view the full table, export it as a CSV or Excel file from Site Audit.
